INSTRUCTIONS

ACCESS TO A 3D PRINTER IS REQUIRED TO CONSTRUCT THE BELL 429.

01. Download and unzip the folder.
02. Load the .STL file into any modeling software you feel comfortable using.
03. You can alter your model in 3D before you print it.
04. ... or print the model as-is and alter it after you print it.
05. ... or alter it in 3D. Then alter it again after it's been printed.
06. Feel free to scale the model up or down.

THE MOST IMPORTANT BIT.

Re-mix your 3D model in some way. Whatever your opinion is on the topics revolving around the issue of surveillance, let them show up in your design. Change the shape of the vehicle. Use software. Paint on it. Draw on it. Wire it with electronics. Use the 3D print to make a mold. Chrome it. Rebuild it from scratch in clay, or tin foil. There really is no limit. The .STL is only a starting point for discourse.

DISPLAY YOUR IDEAS AT THE GALLERY SHOW...

The public's models will be on display at the upcoming exhibition, 'Surveillance', being held in the University City Science Center's Esther Klein Gallery in Philadelphia from August 18 to September 30, 2016.

If you'd like your model to be placed on view, drop it off at the Esther Klein Gallery between 9AM - 5PM Mon to Sat between August 10 and when the show closes on September 30, 2016. The Gallery is located at;

3600 Market Street, Philadelphia, PA 19104

... OR DISPLAY YOUR IDEAS ON THE WEBSITE.

If you live too far from Philadelphia to personally drop off a custom action figure model, there is another option. You can alter this .STL file and send a copy back to us. Your 3D file will be made available on our website after the start of the exhibition for people to download and build. We will attempt to display a printout of your altered .STL in the gallery.

Go to <http://www.droneactionfigure.com/> after August 18 to upload your altered 3D model.

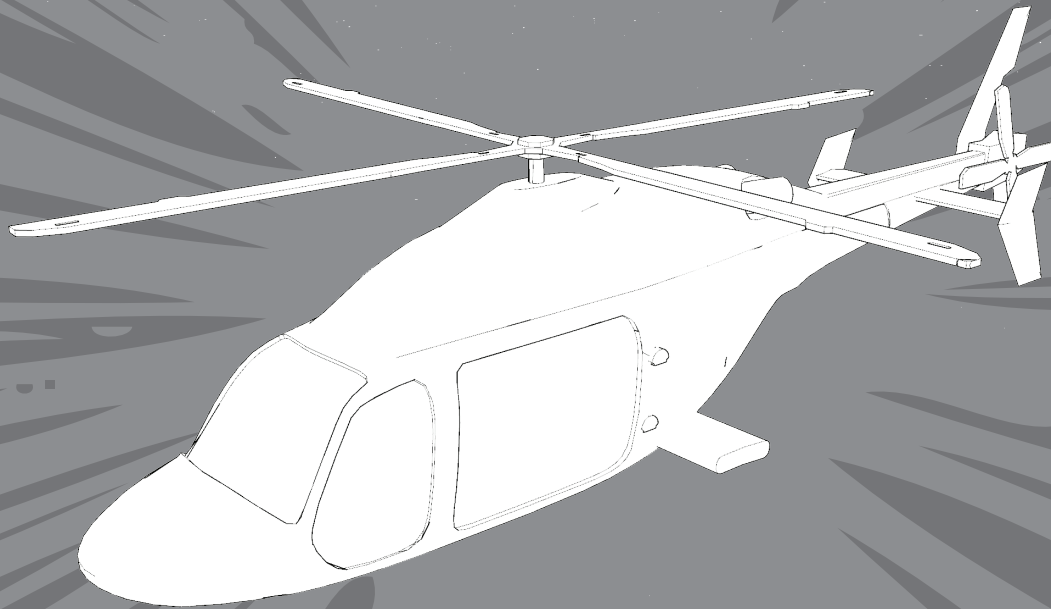

PLEASE NOTE: Your model must be ALTERED in some way from the original template to be placed on display.
